VOLUME 9

SUBJECT INDEX

Acetylation
of cortisol by brain *in vitro*, 231
Actinomycin
inhibition of enzyme synthesis in rat uteri by, 367
21-Acylaminopregn-4-ene-3,20-dione derivatives
synthesis of, 289
Adrenal
rabbit, biosynthesis of corticosteroids in, 177
slices from newborn infants, incubation with pregnenolone and progesterone, 113
tumor, secretion of testosterone sulfate, 1
vein blood, corticosterone secretion in, 41
Anabolic steroids
effects on chick comb, 299
Androgenic activity
of some anabolic steroids, 299
Androgens
measurement in blood, 71
Androstan-3α-ol-17-one sulfate
hydrolysis of, 347
Androst-4-ene-3,17-dione
estimation of in blood, 71
metabolism in human corpus luteum tissue, 485
Androst-4-ene-6β-ol-3,17-dione
formation in the human corpus luteum tissue, 485
Androst-4-en-17β-ol-3-one
(see testosterone)
Androst-5-en-3β,7β-diol-17-one
biosynthesis by hepatic microsomes, 23
Androst-5-en-3β-ol-17-one
hydroxylation by hepatic microsomes, 23
synthesis in adrenals, 57
Antifertility effects of steroids, 237
Anti-inflammatory activity
of dichlorocorticoid derivatives, 143
Assay
of urinary estrogens, 193
17-Azasteroids
nuclear magnetic resonance spectra of, 135

Bile steroids
separation and identification of two isomeric forms, 443
Biosynthesis
aldosterone, effect of hexadimethrine bromide on, 499
of androgens by human adrenal gland, 393
of C-18-oxygenated corticosteroids by rabbit adrenals *in vitro*, 177
steroid , inhibition in placenta, 567
Brain
acetylation of cortisol by, 231

Cartilaginous fish
isolation of pregn-4-ene-1α,11β,21-triol-3,20-dione from, 457
Chol-4-en-3-one-24-oic acid
non stereospecific reduction in rat, 607
5β-Cholestane-3α,7α,12α,24α-tetrol
separation and identification of, 443
5β-Cholest-7-en-3β-ol
production of by intestinal microorganisms, 591
synthesis of, 591
5β-Cholest-8(14)-en-3β-ol
synthesis of, 591
5β-Cholest-14-en-3β-ol
synthesis of, 591
Cholesterol (cholest-5-en-3β-ol)
biosynthesis, effect of 20,25-diaza-cholesterol on, 85
biosynthesis inhibitors, effect on adrenal corticosteroid secretion, 41
inhibition of synthesis by pregnenolone of, 405
Chromatography
gas liquid, of 5α and 5β-cholestenols, 591
simultaneous determination of urinary pregnanediol and pregnanetriol, 327
thin layer, detection of estrogens by, 507
---- -----, separation of stereo-isomers of bile steroids, 443
Corpus luteum
bovine, inhibition of cholesterol synthesis in, 405
Corticosteroids
biosynthesis by rabbit adrenals, 177
ester sulphates, incorporation of pregnenolone-7α-^{3}H and progesterone-4-^{14}C into, 113
incorporation of pregnenolone-7α-^{3}H and progesterone-4-^{14}C into, 113
Corticosterone (pregn-4-ene-11β,21-diol-3,20-dione)
determination in plasma, 537
secretion in adrenal vein blood, 41
Cortisol (pregn-4-ene-11β,17,21-triol-3,20-dione)
acetylation by brain, 231
determination in plasma, 537

David color reaction
specificity of, 623
Dehydrogenase
Δ^{5}-3β-hydroxysteroid, inhibition of in placenta, 567
Deuterium labeling
of 15-ketosteroids, 163
20,25-Diaza-cholesterol
effect on serum lipoprotein lipids of rats, 85
Dimethylstilbesterol
effect on cellular structure of epithelial cells, 479

Embryos
viable, after ovum transfers in long-term ovariectomised mice, 53
Ergosta-7,22-dien-3-one
methylation of, 601
Estradiol-17β
binding to end organ receptor proteins, 431
synthesis of ring A derivatives of, 307

Estradiol 3-methyl ether
reduction of, 97
Estra-1,3,5(10)-triene-3,17β -diol
(see estradiol-17β)
Estra-1,3,5(10)-triene-3-ol-17-one
(see estrone)
Estra-1,3,5(10)-triene-1,2,3-trimethoxy-17β -ol
synthesis of, 307
Estra-1,3,5(10)-triene-1,3,4-trimethoxy-17β -ol
synthesis of, 307
Estriol
as an inhibitor of estradiol binding to end organ receptor proteins, 431
Estrogens
automated fluorometric assay of, 193
detection by thin layer chromatography, 507
induction by implantation, 53
Estrone (estra-1,3,5(10)-trien-3-ol-17-one)
synthesis of methoxy derivatives of, 307
17α -Ethynylestradiol-3-cyclopentyl ether
metabolism of in women, 275

Fluorometric determination
of corticosteroids,537
21-Fluoroprogesterone-20-ethylene ketal
and derivatives, progestational activity of, 217

Gerbil
Mongolian, effects of ACTH and TPNH on progesterone metabolism, 15

Hexadimethrine bromide
effect on conversion of progesterone by rat adrenals, 499
Histones
interaction with steroids, 451
Hormones
steroid, effect on luteinization in rat ovaries, 583
Hydrolysis
of steroid sulfates, 347
Hydrophosphinylation
of α,β -unsaturated ketosteroids, 101
Hydroxylation
microbial, of solanidine, 553
of androst-4-ene-3,17-dione in human corpus luteum tissue, 485
1α -Hydroxylation
of corticosterone by fish, 457
7β -Hydroxylation
of androst-5-en-17-one-3β -ol by hepatic microsomes, 23

Implantation
in the ovariectomised mouse, 53
Impurities
chemical, effect on stability of labeled steroids, 157
Inhibition
of estrogen-induced enzyme synthesis in rat uteri, 367
Insect hormones
moulting activity of, 529

Intrasplenic ovarian autografts
effect on luteinization in rats, 583

17-Ketosteroids
Reformatsky reaction of, 373
15-Ketosteroids
mass spectrometry of, 163

Labeled steroids
effects of chemical impurities on stability of, 157
Lipoproteins
effect of 20,25-diaza-cholesterol on composition of, 85
Liver microsomes
7β-hydroxylation of androst-5-en-17-one-3β-ol by, 23

Male pseudohermaphroditism with testicular feminization
secretation of testosterone sulfate, 1
Mammalian ova
structural specificity of progesterone for inhibiting cleavage of, 256
Mass spectrometry
of 15-ketosteroids, 163
of solanidine and derivatives, 553
Metabolism
of androst-4-ene-3,17-dione in human corpus luteum tissue, 485
of 17α-ethynylestradiol-3-cyclopentyl ether in women, 275
of progesterone by human placenta perfused in situ, 263
of steroids in mammalian fetal testes in vitro, 415
Methylation
of ergosta-7,22-dien-3-one, 601
Methylenation
of unsaturated ketones, 387
Monkeys
urinary estrogens of, 517

Nitrogenous steroids
synthesis of, 289
Non-stereospecific reduction
of chol-4-en-3-one-24-oic acid in rat, 607
19-Nortestosterone
synthesis from estradiol 3-methyl ether, 97
B-Nortestosterone-17α-methyl
antigonadotropic activity of, 245
effect on ovarian weight, 245
effect on ovulation, 245
Nuclear Magnetic Resonance
of 17-azasteroids, 135

Phosphonate esters
steroidal, synthesis of, 101
Placenta
control of steroid synthesis by steroid metabolites, 567
in situ perfusion with progesterone, 263
Ponasterones
moulting activity of, 529

5β-Pregnane-3α,20α-diol
determination by gas-liquid chromatography, 327
5β-Pregnane-3α,17α,20α-triol
determination by gas-liquid chromatography, 327
Pregn-4-ene-17α-ol-3,20-dione
conversion in guinea pig adrenal, 57
Pregn-4-ene-21-ol-3,20-dione (cortexone)
air oxidation of, 289
21-deoxy-21-acylamino analogs of, 289
Pregn-4-ene-1α,11β,21-triol-3,20-dione
isolation from blood and interrenal tissue, 457
Pregnenolone
as inhibitor of cholesterol synthesis in bovine corpus luteum, 405
Pregnenolone-7-^{3}H
conversion to testosterone and androstenedione by mammalian fetal testes in vitro, 415
incorporation into corticosteroids by human adrenal slices, 113
Progestational activity
of 20-ethylene ketals of 21-fluoropregnan-20-ones, 217
Progesterone
effect of hexadimethrine bromide on biosynthesis of in rat adrenals, 499
in situ placental perfusion of, 263
metabolism of by human placenta, 263
structural specificity for inhibiting cleavage of mammalian ova, 256
Progesterone-4-^{14}C
conversion to testosterone and androstenedione by mammalian fetal testes in vitro, 415
incorporation into corticosteroids by human adrenal slices, 113
metabolism in Mongolian gerbil, 15

20α-Reductase
inhibition in placenta by estriol, 567
Reduction
by lithium and gaseous ammonia, 97
Reformatsky reaction
of 17-ketosteroids, 373

Solanidine
and derivatives, mass spectra of, 553
microbial hydroxylation of, 553
Stability
of labeled steroids, 157
Stein-Leventhal syndrome
secretion of testosterone sulfate, 1
Stereochemistry
of methylene adducts of unsaturated ketones, 387
Steroidal sulfates
hydrolysis of, 347
Steroidogenesis
by human adrenal gland, 393
Steroids
antifertility effect of, 235
interaction with DNA, 451
interaction with histones, 451
specificity of David color reaction with, 623

Synthesis
of 17-esters and 17,21-diesters of 9α,11β-dichlorocorticoids, 143

Testes
fetal, biosynthesis of testosterone and androstene dione in, 415
Testosterone(androst-4-en-17β-ol-3-one)
estimation in blood, 71
Testosterone sulfate
isolation from human plasma, 1

Urinary estrogens
excretion patterns in pregnant rhesus monkeys, 517
Urinary steroids
relation to adrenal steroidogenesis, 393
